Shore Power Cords

Marina Policy: ALL SHORE POWER CORDS USED WITHIN OUR MARINA MUST BE MARINE RATED AND UL LISTED.

Purpose: To prevent serious risks, including electrical hazards, and fires, caused by non-Marine rated power cords exposed to the harsh conditions of the marine environment and ensure the safety of both our marina and your vessels.

Scope: This policy applies to **ALL** Shore Power Cords placed in use at Soverel Harbour Marina.

We are committed to ensuring the safety and longevity of our marina facilities. As part of this commitment, we are reinforcing our Policy regarding the use of shore power cords. Our Insurance Coverage and most likely yours as well, will be VOID if a claim is traced to a non-Marine Rated Cord Set.

ALL SHORE POWER CORDS USED WITHIN OUR MARINA MUST BE MARINE RATED AND UL LISTED.

- Shore Power Cords include All power cords in use between the Marina Power Pedestal and a vessel or any electrical equipment on the Dock not under visual supervision.
 - If you are using an electrical appliance at your vessel and not able to visually supervise the cord, disconnect it.
- Non-compliant cords will not be permitted for use within the marina and removed if found connected.
 - “Outdoor” consumer cords are not acceptable. 15 Amp Marine Rated cords are available from Marine Stores and many sources online. Yellow 12/3 conductor cords are most recognizable as Marine Rated. Please retain documentation of your Marine Rated Cord to avoid issues.
- All components of “assembled” shore power cords must be Marine rated.
 - Please retain documentation of your Marine rated components to avoid issues.

Regular inspections

- Regular inspections will be conducted to ensure ongoing compliance with this policy.

We appreciate your cooperation in adhering to this policy. Your safety and the protection of our Marina facilities are our top priorities. For any questions or further information, please contact the marina office.

Thank you for your attention to this important matter.
